

## **Available Job Opportunity: CO<sub>2</sub> Pipeline Compliance Specialist**

### **CAPTUREPOINT**

*Full-time role in Allen, TX, with significant travel required. For an exceptionally well-qualified candidate, company will consider changing job home-base to a field office in Coffeyville, KS; Liberal, KS; Shidler, OK or Perryton, TX.*

CapturePoint is seeking a Pipeline Compliance Specialist to ensure that the company's CO<sub>2</sub> pipeline operations comply with all applicable federal, state, and local regulations, as well as with internal company policies and industry standards. This role is responsible for monitoring, maintaining, and improving compliance programs, coordinating audits and inspections, and supporting safe and reliable operation of our CO<sub>2</sub> pipeline system.

If you are interested in working with a dynamic, results-oriented team at a company that is defining the potential of carbon management, and you have 10+ years of experience in all aspects of pipeline compliance oversight including both operational requirements and regulatory standards, please submit your resume for consideration. Preference will be given to candidates with backgrounds in CO<sub>2</sub> or hazardous liquids pipelines. Significant regional travel to company pipeline facilities, field sites and regulatory meetings will be expected.

### **Duties and Responsibilities:**

- **Regulatory Compliance**
  - Monitor and interpret applicable regulations (e.g., PHMSA Part 195, EPA, state pipeline safety rules) as they apply to CO<sub>2</sub> pipeline operations.
  - Maintain compliance with permits, licenses, and environmental requirements.
  - Prepare and submit required regulatory filings, reports, and notifications.
- **Audits & Inspections**
  - Coordinate with regulatory agencies during inspections, audits, and incident investigations.
  - Conduct internal compliance audits and field verifications to ensure adherence to company policies and regulatory requirements.
  - Track and close out corrective actions.
- **Operations & Safety Support**
  - Support Operations, Integrity, and Environmental teams in implementing compliance-related programs, including O&M, Integrity Management, Public Awareness, and Damage Prevention.
  - Assist in the development and review of operating procedures to align with current regulations.
  - Participate in incident response drills and emergency planning activities.

- **Training & Awareness**

- Provide training and guidance to field and office personnel on compliance obligations and best practices.
- Promote a culture of safety, environmental stewardship, and regulatory compliance throughout the organization.

- **Documentation & Systems**

- Maintain accurate compliance records, including inspection logs, audit reports, and regulatory submissions.
- Support implementation and maintenance of compliance tracking systems and software tools.

**Specialized Requirements:**

- Certification in pipeline safety, compliance, or related discipline (e.g., API, NACE, or similar).
- Knowledge of PHMSA Part 195 pipeline safety regulations, environmental permitting, and related industry standards.
- Experience with Integrity Management, Control Room Management, and/or Operations & Maintenance compliance programs preferred.
- Familiarity with CO<sub>2</sub> transport, compression, and sequestration operations.
- Prior experience interfacing with PHMSA and state pipeline regulators preferred.

**Skills and Abilities:**

- Exceptional team and interpersonal skills with the ability and desire to work within a multi-disciplinary team and coordinate effectively across departments.
- Strong organizational, communication, and analytical skills.
- Ability to work independently and collaboratively across multi-disciplinary teams.

**Qualifications:**

- 10+ years of pipeline compliance, regulatory, or operations experience, preferably with hazardous liquids or CO<sub>2</sub> pipeline systems.
- Availability for significant travel (up to 50% time) to regional pipeline facilities, field sites, and regulatory meetings.
- High School Diploma or equivalent.
- Must be able to speak, read and write English fluently.
- Must have valid documentation to work in the United States required (proof of US citizenship, permanent residency, or a relevant, valid, unexpired work visa or permit from an authorized US government agency)

**Benefits:**

- Competitive salary, bonus and 401(k) match
- Comprehensive health package (medical, dental, and vision)
- Traditional (40 hours/week onsite), Work from Home Friday, or 9/80 work schedules are available.

**Apply** by sending your resume to [jobs@capturepointllc.com](mailto:jobs@capturepointllc.com). Indicate that you wish to be considered for the Pipeline Compliance Specialist position. We will contact you if you qualify for an interview. No phone inquiries please.
